## 175 YASAR OZKAN ENG'G AND CONTRACTING CO. INC. Ankara, Turkey

### URTDIŞI MÜTEAHHİTLİK HİZMETLERİ BAŞARI ÖDÜLLERİ

## A REPUTABLE NAME IN CONSTRUCTION

Yasar Ozkan, based in Turkey, is as one of the top engineering and construction firms in the world (according to 2008 ENR statistics). This status emerged as the company began to win major contracts from government projects, NATO, private companies, housing projects and manufacturing plants the successful completion of which won them a well-deserved international reputation. The President of the company, Yasar Ozkan, spoke to Azra Yazar about the company and its new business ventures.

currently employs around 650 people but only a few months ago this figure was 1,500. As work starts on new contracts Mr Ozkan will once again be recruiting a fuller workforce and expects to reach the higher number of employees again fairly soon.

**New directions**  
Mr Ozkan explains that the slowdown in the construction sector in Turkey and the unpredictable market conditions scared many companies off. However, he says the narrowing down of the market had started even before the global financial conditions started to deteriorate, partly because the IMF decreased the extent of its investments in Turkey and in the last five to six years concentrated its efforts only on smaller projects. In Turkey, there are currently over 200 construction companies which are fiercely competing with each other for an ever smaller share of the profits. Clearly, the domestic market will not be a priority for the immediate future. There are no projects in Turkey big enough to attract our attention for the time being. This is why they are focusing on larger projects in Libya, and in fact the company has stopped operating in construction projects in Turkey for the moment.

Having said this, management has decided to enter new ventures to begin fairly soon. One of these plans is to build and run a boutique hotel in Turkey's famous Cappadocia region, something that clearly marks a new direction. Mr Ozkan has already pushed things forward to the extent that his company has bought land and is currently waiting to conclude the construction plans. He is adamant that this will not be just another big block of ugly hotels, but instead will be a charming boutique hotel in keeping with the region, which is
